

TANISH PANWAR

panwartanish@outlook.com | +91 8639610889 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Ambitious B.Tech CSE (AI & Machine Learning) student bridging the gap between frontend engineering, AI integration, and product management. Proven track record of developing scalable React and Next.js architectures, conceptualizing agentic AI workflows, and driving user-centric product strategies. Seeking internships in software engineering, frontend development, or AI product management to deliver highly optimized, impactful software solutions.

EDUCATION

Marwadi University

2025 – 2029

Bachelor of Technology (B.Tech) in Computer Science Engineering (AI & ML)

IIT Patna

Product Management & Agentic AI Program | Selected via competitive entrance examination

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, C, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, Responsive Web Design, Figma
- **Backend & Cloud:** FastAPI, REST APIs, Supabase, Postman, Microsoft Azure
- **AI & Product Strategy:** Generative AI APIs, Prompt Engineering, PRD Creation, MVP Planning, Feature Prioritization, User Research & Flows
- **Tools & Operations:** Git, GitHub, VS Code, Linux Terminal, Cybersecurity Forensics (ExifTool, Binwalk, Hashcat)

LEADERSHIP & CERTIFICATIONS

Core Committee Member | Robotics Club, Marwadi University

2025 – Present

- Promoted to the Core Committee in 2026 after demonstrating technical proficiency and active contribution as a general member throughout 2025.
- Lead technical initiatives, coordinate club activities, and collaborate with cross-functional student teams to design and execute hardware-software integrated projects.

Microsoft Certified: Azure Fundamentals | Microsoft

TECHNICAL PROJECTS

Legit AI – AI-Powered Legal Document Analysis Platform | React.js, Next.js, TypeScript, Tailwind, FastAPI

- Engineered the frontend architecture for an advanced platform leveraging Large Language Models to distill complex legal jargon into actionable insights.
- Architected and implemented dynamic AI chatbot workflows, optimizing state management and UI responsiveness for seamless document querying.
- Spearheaded product planning cycles by mapping intuitive user journeys, drafting detailed documentation, and defining core feature requirements.

TalentIQ – AI-Driven Talent Intelligence Platform | *React.js, Next.js, TypeScript, Tailwind CSS*

- Developed a high-performance, mobile-responsive UI tailored for a modern recruitment ecosystem focused on automated candidate evaluation.
- Designed specialized, intuitive workflows for both candidate and recruiter portals to streamline the talent discovery and hiring pipeline.
- Contributed to critical platform architecture discussions, facilitating MVP rollout planning and technical debt management.

Sudarshan – Hybrid Disaster Response System | *Smart India Hackathon*

- Conceptualized and presented an integrated drone and rover deployment architecture designed to execute real-time AI analysis in critical disaster scenarios.

ACTIVITIES & ACHIEVEMENTS

- **Hackathon Competitor:** Participated in the ADSC Hackathon, collaborating on scalable, real-world AI software integrations.
- **Capture The Flag (CTF) Participant:** Actively engaged in cybersecurity competitions, recently solving applied cryptography and digital forensics challenges at the Breach Point CTF Siege of Troy.
